

## **SPORTFIX® CLEAN**

**Retention of  
98 % microplastic  
(infill material and  
blades of grass)  
from artificial turf pitches**

# SPORTFIX® CLEAN

Catchment of microplastics from artificial turf pitches.

## Requirements:

Drainage channels for artificial turf pitches have to

- offer reliable drainage and infiltration
- collect all infill material (=microplastics) before water is led to a sewer system

## Application areas

- Hockey pitches
- Football pitches
- Rugby pitches
- Leisure sports grounds made of artificial turf

## Solution

Therefore SPORTFIX CLEAN channels are suitable for runoff treatment from artificial turf pitches and:

- comply to German Standard DWA-A-178
- treat 93 % of the total annual runoff covering rainfall intensities up to 20 l/(s\*ha)

# Key Benefits

- ✓ effective solution for collecting microplastics from artificial turf pitches
- ✓ modular system for all demands and applications
- ✓ according to regulations of DWA (= German Association of Water)
