

The benefits of **RECYFIX**[®]PRO channels

100 % corrosion-free

Pre-assembled ready for installation

- channel and grating = one part
 - no spare part
 - easy handling on stock and construction site
 - cost-efficient transport
- = better gross margin**

Corrosion-free gratings

- high-grade composite
 - FIBRETEC Slotted grating: anti-slippery surface, hydraulically optimized with elegant inlet slots
 - GUGI-Mesh grating
 - ductile iron longitudinal grating, KTL coated
- = flexibility / security**

Angle housing

- PE-angle housing acc. DIN 19580
 - Ridges to stop and lateral movements
 - inlaying gratings
- = security**

High resistance

- high resistance against frost, de-icing salt and UV-rays
 - withstand high temperature differences
- = durability**

Award-winning design

- FIBRETEC Slotted gratings honoured with Focus Open Design Award
 - nomination for German design prize
- = high quality work**

Low weight ensures easy handling on site

- much lighter than channels made of polymer concrete
 - easy transport and installation
- = cost savings**

High-grade material

- RECYFIX - stable and unbreakable
 - elastic and especially robust material
 - withstand in daily use high loadings and temperatures differences
- = security**
